

EXTERIOR PRE-PAINT CHECKLIST

The following will assist us in completing our work properly and efficiently. Please read carefully.

OUR PAINTERS WILL

- Cover flooring with plastic, paper or drop cloths
- Cover furniture with plastic or drop cloths
- Remove trash & empty paint containers when done
- Mark leftover paint cans & leave them for customer
- Unless specified on quote, we **will not** wash windows upon completion of project
- Unless specified on quote, we **will not** stain underside of decks

CUSTOMER MUST (PRIOR TO OUR ARRIVAL)

- Cut back, take down, remove any bushes, vines, bees, or wasp nests that may be touching, connected to, or close to the house. If this not possible, we try our best to work around them but cannot guarantee perfect coverage when painting. If bee and/or wasp nests will remain present, please notify our office prior to our arrival.
- Remove all items such as furniture, grills, plants from the area that you do not want damaged from pressure-washing (The Painting Company **does not** move these items for you). Once moved store away properly.
- Make sure all windows are **closed** for pressure-washing. Access to water must be available. You may need to arrange for window-washers to service your home after painting, as spotting may occur due to pressure washing (The Painting Company **does not** provide this service).
- Relocate pets. We love animals but please make arrangements to contain or remove your pets for the duration of the project.

LET US KNOW

- Where our painters should park (if any parking restrictions on street)
- Can our painters use your facilities?
- Can we display a sign with our company info on the property while we work?
- If you will need our painters to move your furniture/other items. An **additional \$50** per hour, per man will apply
- If you have any questions or concerns prior to paint

UPON COMPLETION

We ask that you walk the property at this time for any touch-ups that may be required (there will not be a separate trip for this step). The final balance due will still be required if customer is not available for final walk-through. After we have left your home, please call our office or the project manager with any warranty-related so that we may schedule a time to return.

WE VALUE YOUR FEEDBACK! Upon completion, please let us know how we did to help us better determine how we can improve our services. If you were happy with our performance, please be sure to refer anyone you know to receive a discount on your next project or a payment for referral.
